The Chew: An Essential Guide to Cooking and Entertaining will guide you through the planning, cooking and enjoyment of everyday meals with a twist.

Couple recipes in here I would make - Grilled cheese casserole (yum) and a turkey recipe that would've helped around Thanksgiving. I love The Chew the show. A lot of these I wouldn't make, I like to watch them make them but I don't entertain & well, good thing since I don't have a dining room! My one gripe is that many of these recipes don't have a picture of the finished product. There are lots of photos all through but in a cook book I want pictures of the finished dish.

This is an extremely user friendly entertaining cookbook. I was really impressed by the recipes and how versatile they were. The casts' commentary about why the loved the recipe below made me want to cook at least 5 of the foods immediately; and I'm now planning to make at least half of the things in this book in the future. Maybe two of the recipes were a little daunting for a home cook, but the rest seemed very user-friendly with easy instructions. Loved the way the tips and interviews were woven into the cook book so that you could read and learn more about the hosts and what they preferred. Plenty of yummy recipes to try if only I can now convince my family to be adventurous.

## The Chew Anthony Bourdain

I really don't like the fact that there is not a picture to go with every recipe, but there are pictures on every page. Most of the pictures are of the hosts of "The Chew" preparing a dish that is not the same as the recipe on the adjoining page.

Definitely some favorite recipes from the show. I love all the funny and sweet pictures too.
