You'd Be Mine

By Erin Hahn

You'd Be Mine Read Online

Annie Mathers is America's sweetheart and heir to a country music legacy full of all the things her Gran warned her about. Superstar Clay Coolidge is most definitely going to end up one of those things.

You'd Be Mine Erin Hahn Pdf

But unfortunately for Clay, if he can't convince Annie to join his summer tour, his music label is going to drop him. That's what happens when your bad boy image turns into bad boy reality. Annie has been avoiding the spotlight after her parents' tragic death, except on her skyrocketing YouTube channel. Clay's label wants to land Annie, and Clay has to make it happen.

You'd Be Mine Pdf

Swayed by Clay's undeniable charm and good looks, Annie and her band agree to join the tour. From the start fans want them to be more than just tour mates, and Annie and Clay can't help but wonder if the fans are right. But if there's one part of fame Annie wants nothing to do with, it's a high-profile relationship. She had a front row seat to her parents' volatile marriage and isn't interested in repeating history. If only she could convince her heart that Clay, with his painful past and head over heels inducing tenor, isn't worth the risk.

Obviously, I've already written, read and loved this book... but I just wanted to say that I sincerely hope everyone who takes the time to read Annie and Clay's story finds something of themselves in it. You honor me with your support and curiosity and I can't wait to share my country music kids with all of you! <3

You'd Be Mine Tracy Chapman

A sweet love story lively with swoon and swagger!

Erin Hahn's debut is a lively heart warming contemporary YA romance. The kind of book that puts a BIG smile on your face! The thing I really like about young adult romance is how innocent it is; how everything is just so exaggerated, because it is the first time these characters have ever felt this way. I guess I appreciate that the characters have not been jaded yet and I can forgive them their naivety because they are young. Perhaps I long for

Erin Hahn's debut is a lively heart warming contemporary YA romance. The kind of book that puts a BIG smile on your face! The thing I really like about young adult romance is how innocent it is; how everything is just so exaggerated, because it is the first time these characters have ever felt this way. I guess I appreciate that the characters have not been jaded yet and I can forgive them their naivety because they are young. Perhaps I long for the days when I was a little more naive and a little less jaded.

Annie and Clay are up-and-coming country stars. Clay has a bit of a bad boy reputation, his label insists he gets Annie to tour with him to help repair his image. Annie is the daughter of two major country legends who died tragically, determined not to follow in her parents footsteps she is extremely hesitant to step into the spotlight. The two end up touring together and what follows is a Sweet relationship, that I am sure every reader and fan was rooting for. Of course as in all good teen romances this book had plenty of drama, angst, and emotion. I believe Miss Hahn did a wonderful job handling the drama, and the ending... perfect!

Annie and Clay were great characters and I loved the relationship between them. Annie had such a quiet confidence and a sweetness about her. Clay was really a good guy in and boy clothing. The two of them together were quite magical, especially when it came to the music. Erin Hahn brought such strong voices to these characters that I feel as though I've heard them sing.

A lovely little gem of a book, perfect for readers of all ages who love the love.ðŸ•

*** many thanks to St. Martin's Press for my copy of this book *** ...more

You'd Be Mine showed up as a surprise ðŸœl think you'll love itâ€• in a box of ARCs from St. Martin's Press. My initial reaction was

You'd Be Mine

I mean, for real. I'm the worst. Which is why I try to be very selective when it comes to reader copies and only request/accept things I think I'll love. YA romance? Yikes. I'm not always so good at reading those. Buuuuuuuuuut, sometimes you just know you're gonna be okay right from the jump. The cover and title of this one were appealing, the name dropping of other authors worked great because my mind kept thinking they wrote I'll Meet You There (so sorry Heather Demetrios but people should really name drop you because you write some good stories) and the plot????

I mean, for real. I'm the worst. Which is why I try to be very selective when it comes to reader copies and only request/accept things I think I'll love. YA romance? Yikes. I'm not always so good at reading those. Buuuuuuuuuut, sometimes you just know you're gonna be okay right from the jump. The cover and title of this one were appealing, the name dropping of other authors worked great because my mind kept thinking they wrote I'll Meet You There (so sorry Heather Demetrios but people should really name drop you because you write some good stories) and the plot????

So here's a little confession: I have become a super hardcore fan of what I call "pop country" music. I grew up on Waylan and Willie, rebelled with the likes of Eddie Vedder and other soothing song stylings of Seattle grunge, and now thanks to my kid (who also introduced me to 21 Pilots a duo that never fails to make me feel like a dirty pervert who will have Dateline showing up at the door any moment) I am a lover of Top 40 country music. THIS is a book about Top 40 country music. And I loved it. Kudos to you brave little marketer for rolling the dice on me!

The story here starts with Clay Coolidge. He's the hottest thing in country music and makes all the girls want to take their underwears off by singing them songs like

Unfortunately he also has a rep for being a real bad boy to the point where his underage drinking shenanigans might cost him his contract. The potential solution to his problems? Get himself an opening act that will tidy up his image. That's where Annie Mathers comes in. A legacy to country royalty and 100% good girl who sings songs like

Annie always keeps her eyes on the prize especially after seeing what the darker side of fame did to her parents. Their job is simple. Tour the summer State Fair circuit and make America fall in love with the new version of Johnny and June

You'd Be Mine

Heavy on friendship and country music â€” light on romance, Youâ€™d Be Mine is sure to be a hit. If an old grouch like me can fall in love with these kidsâ€™ love, surely actual kids who are in the target demographic for this book will too
