The Culling Trials Book 2

You Don't Choose The Academy. The Academy Chooses You.

The Culling Trials Book 3

The last of the Culling Trials is here. I foolishly thought Iâ€™d survived the worst.

My team is falling to pieces around me and my heart is shattered for the losses Iâ€™ve endured. But I canâ€™t stop when Iâ€™m so close to the end. There are too many people depending on me.

Iâ€™m not what I thought I was. Not what anyone thought I was.

But to tell people the truth would be to kill us all.

The Culling Trials Book 1

To fail the trials will mean death, but to succeed might damn me for life.

I just hope the next part will be solid in character development, bits, and clue, politic, and romance, maybe? just not another roller coaster ride of kidnap and assassin....too much and it'll get boring, ya know.

omg, omg, omg, book 3 is here yay...

This trilogy has been compellingly amazing... and now we are at the end of the Culling Trials I seriously can't wait to see what happens when they are all at the academy, if this team could find so much trouble during the Culling Trials I pity their teachers...lol

Wild, Wally, Peter, Orin, and Ethan are a team whether they want to be or not, they are a seriously magical bunch of misfits who make each other better when they work together...

The Culling Trials have been much more than mere trials for this team but each and every time they have prevailed, somehow...lol most of the time its sheer stubbornness on Wild's part I do seriously love her never give up attitude.

My favorite scene in the book has to be when Wild laughed in Ethan's father's face I mean seriously that was just priceless...

The story is beyond intriguing, the magical loop-holes throughout the plot bring the story more to life and have me jumping out of my seat with wonder as I never know which way the authors will go.

The Culling Trials 3

For Urban Fantasy fans this is a serious must read series and I can't wait for more, I can definitely see it becoming an absolute favorite for me.

Heart breaking Losses, Jaw Dropping Truths - Trust No One!!

This was a shocker of a finale to this exciting & fast paced trilogy!

Wild's crew, still down one because they're still missing their friend, Gregory, wake up to find its still like night outside, the moon is high but it's actually supposed to be daytime. Its the Trial of Night - so much for them picking their trials randomly!

Wild's crew, still down one because they're still missing their friend, Gregory, wake up to find its still like night outside, the moon is high but it's actually supposed to be daytime. Its the Trial of Night - so much for them picking their trials randomly!

Something is very wrong once they step through the gates. Her internal warning system is going off like crazy, more so than ever before! That's when Orin & Wally tell them all they're in the graveyard of Supernatural beings, Ethan confirms it's not an illusion and then a thunderous roll of power goes through the ground. Wally looks ill, she tells them it's a Necromancer bringing the dead back as Zombies & the likelihood of their survival is pretty much non existent! The 'game' has changed. Yes people can die during the Trials but this - They're actively trying to kill one or all of them! - Wild desperately tries to keep her crew together, even when all hope seems lost, but bigger forces are at play! She was never meant to survive to enter the actual Academy, she's starting to realise that now! She just hopes she can save everyone else before they finally take her down!

This book has some awful & heart breaking parts in it. Betrayals, losses & confusion. There is also clarity, understanding & a certain amount of peace. This is an unmissable trilogy. I truly hope the Authors decide to write more about this crazy & exciting world.

Wild was shocked when a strange man showed up at her farm with an envelope for her younger brother, one eerily similar to the one that her older brother had received and who had died at this school. Determined not to let her younger brother die too, Wild sets out to become a boy and save her family from more tragedy.

Success

Such a good story, but even good stories must come to an end.

Just like the previous installments, I virtually read book 3 in one sitting.

Wild is an amazing character, one who possesses real steel at the core if her being. She is very well written.

This story continues on just where it left off from book 2 a pretty smooth transition really. Their group with one member missing move onto their last two trials. They also take the time to find evidence of who was kidnapping the others.

It was unexpected in parts, had a few chuckle moments, a couple of awkward ones and one or two OMG bits.

On the downside, I did feel somewhat let down with Wild's interactions. It's a little difficult to put into words, only to say it felt like 2 different people writing her. As well as the story becoming a little rushed in the last 4 or 5 chapters. There are unanswered questions that were just skirted over or left to ponder on. I don't like loose ends. Sorry but there it is.

At the end of it, it still gets a tick of approval and fingers crossed, there'll be spin offs or other stand alone stories. ...more

I'll bump up the star rating if this isn't the last book in the series. Because it can't be!

Not because I loved this series so much that I don't want it to end. No, it's because book 3 ends with so many things left unexplained. Everyone knows the Wild is Wild (AKA not her brother Billy) but how do they react? They don't. Unless you count putting her in a room with Wally. Which I don't.

There was all this fuss about Billy. (specifically him) coming to the academy. They sent a letter where they threatened his family if he didn't come and gave him lots of money and a time limit. And yet nobody gives the slightest hint that they care about the fact that Billy didn't come to the academy.

WHAT?

The Culling Trials 3

Then there's Wild and her crew going around, trying to solve these disappearances. Where's the higher authority, the people in charge? They're supposed to be the ones looking into this not Wild. Help police, there's a couple of kids (fine, teenagers) getting injured and almost murdered!

That's how I feel. Wally herself says that the Culling Trials are different this year, more people are getting injured. Well, since there's clearly a society of people with magic, there has to be someone in charge. Where's the parents demanding to know why their kids are missing? Where, where, where? It's all a mess.

At this point you can probably see the point I'm trying to make. So, obviously it's no surprise that it's Wild who finds and saves the missing kids. Of course. And after when she and her crew are in an epic battle and she actually kills someone? What happens? You guessed it, nothing. There's no investigation or anything because as I said it before there's no one in charge!

The next day they have their ceremony thing (I forgot what's its called) where a magical cauldron ("sorting hat") decides what house they get into (Harry Potter, anyone?). Wild is left alone with Mr. Sunshine (forgot his name) because he says it's better no one knows about her being a chameleon (power of all five houses) but it's OK for him to know? Maybe he's the one in charge? (who knows?) Wild tells him that she'd rather be chameleon than a null (having no magic).

WHAT THE **** IS WRONG WITH HER?

In the first trial she mocks people for actually wanting to be a part of the magic world when it's so dangerous. But here she is, five extremely dangerous trials later saying that she wants to a part of it. What about her family? Her drunk father? Her fifteen year old sister who's running the ranch/farm/whatever they have? Wild didn't want to leave her family and with good reason but after nearly dying so many times, she bought into the "nulls are losers" mindset and now wants to be a part of it.

Which is why I'm glad that I'm done with the series for the moment. If the authors write another book, then yeah I'll read it because there's so much left unexplained but for now, I want a break from The Culling Trials. ...more
