SCA: A Sine Cosine Algorithm for solving optimization ... This paper proposes a novel population-based optimization algorithm called Sine Cosine Algorithm (SCA) for solving optimization problems. The SCA creates multiple initial random candidate solutions and requires them to fluctuate outwards or towards the best solution using a mathematical model based on sine and cosine functions. SBF Glossary: B - plexoft.com (Click here for bottom) B b B Basic. Not that it was ever called that, but the B programming language was a simplified version of BCPL, in the name of which the B stood for Basic. B was a typeless language like BCPL, and like BCPL also it is remembered today for its genealogical connection to C, explained at the Algol entry. B was created in 1970 by Ken Thompson for the first Unix system on the. A novel nature-inspired algorithm for optimization ... 1. Introduction. Optimization is the process of searching the best possible solution for a particular problem, under given circumstances. In recent years several real-world complex optimization problems have emerged in various fields of engineering [1,2], business and economics [] which cannot be solved within adequate time or accuracy by classical methods.
