'This will be what it is like after Brexit': French border guards cause long queues on Eurostar and 15 mile tailbacks at Calais after imposing strict security controls in pay dispute.

Fingerprint - Wikipedia Fingerprint identification, known as dactyloscopy, or hand print identification, is the process of comparing two instances of friction ridge skin impressions (see Minutiae), from human fingers or toes, or even the palm of the hand or sole of the foot, to determine whether these impressions could have come from the same individual. The flexibility of friction ridge skin means that no two fingers are alike.
