Creep Feeding Beef Calves | VCE Publications | Virginia Tech The Need for Creep Feeding. Creep feeding the nursing calf increases subsequent rate of gain and weaning weight. These responses are related to the lactational curve of beef cows, the decline in pasture or feed quality and quantity needed to support the cow/calf pairs, and the increasing nutrient requirements of the calf during the nursing period. Discouraging Opossums - National Opossum Society These are some things that attract opossums to a particular area, and ways to discourage them if desired. These suggestions may also be valuable for discouraging other wildlife from your area:. ROBERT GORDON WASSON Seeking the Magic Mushroom On the night of June 29-30, 1955, in a Mexican Indian village so remote from the world that most of the people still speak no Spanish, my friend Allan Richardson and I shared with a family of Indian friends a celebration of "holy communion" where "divine" mushrooms were first adored and then consumed. The Indians mingled Christian and pre-Christian elements in their religious practices in a.
