Mathematical logic - Wikipedia Mathematical logic is a subfield of mathematics exploring the applications of formal logic to mathematics. It bears close connections to metamathematics, the foundations of mathematics, and theoretical computer science. The unifying themes in mathematical logic include the study of the expressive power of formal systems and the deductive power of formal proof systems. Mathematical Background - John F. Sowa This web page is a revised and extended version of Appendix A from the book Conceptual Structures by John F. Sowa. It presents a brief summary of the following topics for students and general readers of that book and related books such as Knowledge Representation and books on logic, linguistics, and computer science. Sets, Bags, and Sequences.

ladder-logic Â· Contact and Coil When traditional PC programmers see ladder logic, they think ladder logic programmers are terrible programmers. Being both a .NET developer and a ladder logic programmer, this has caused me a lot of frustration and confusion over the years. Is There a Common American Culture? an article by Robert N ... A Logic Of Expressive Choice

handprint : palette paintings It's easier to understand a painter's palette if you see it both as an abstract pattern on the color wheel, and "in action" as a finished painting. This section presents a gallery of very different palettes and a painting by the artist who uses them. Palettes aren't merely a mechanism to mix colors. Foundations of Mathematics - Sakharov Foundations of Mathematics - Textbook / Reference - with contributions by Bhupinder Anand, Harvey Friedman, Haim Gaifman, Vladik Kreinovich, Victor Makarov, Grigori Mints, Karlis Podnieks, Panu Raatikainen, Stephen Simpson, featured in the Computers/Mathematics section of Science MagazineNetWatch . This is an online resource center for materials that relate to foundations of mathematics (FOM. 10. Analyzing the Meaning of Sentences 10. Analyzing the Meaning of Sentences. We have seen how useful it is to harness the power of a computer to process text on a large scale. However, now that we have the machinery of parsers and feature based grammars, can we do anything similarly useful by analyzing the meaning of sentences?.

Motion picture - Expressive elements of motion pictures ... Motion picture - Expressive elements of motion pictures: Many observers have seen in films a means of expression comparable to language. The French poet and filmmaker Jean Cocteau, for example, called the cinema â€œpicture writing.â€• The language of motion pictures, however, is not the language of words, even though spoken dialogue has been an integral part of motion pictures since the late. INTJ Personality - SystemsThinker.com INTJ is my basic personality type on the Myers-Briggs Type Indicator (MBTI), currently the most commonly used personality type system. The MBTI categorizes individuals as 1 of 16 types based on four variables that measure how they process energy and information, make decisions and structure their lives. LENLS15 (Logic and Engineering of Natural Language ... Aim and Topics. LENLS is an annual international workshop on formal syntax, semantics and pragmatics. A Logic Of Deterrence

Second-order logic - Wikipedia In logic and mathematics second-order logic is an extension of first-order logic, which itself is an extension of propositional logic. Second-order logic is in turn extended by higher-order logic and type theory.. First-order logic quantifies only variables that range over individuals (elements of the domain of discourse); second-order logic, in addition, also quantifies over relations.
